Overview:

Working with over two decades of experience in high energy physics and particle astrophysics, I am a software engineer specializing in experimental physics and other high-performance computing environments. My recent work for the IceCube Neutrino Observatory at the South Pole includes several critical components of the detector's data acquisition system and an innovative, end-to-end implementation of the experiment control system, in production since early 2009. I also play a key role in troubleshooting and maintaining that detector during calibration and normal operations (99% uptime).

It is a passion of mine to develop elegant, powerful implementations which address difficult computing problems in physics, problems which may engage multiple challenges in terms of computability, complexity, scalability, and usability. I am particularly interested in using modern, high-level programming languages and agile methodologies to create Web-based systems which physics collaborations can leverage to effectively manage complex detector environments and the analysis of some of the world's largest datasets.

Education:

December, 1996: Ph. D., Department of Physics, University of Wisconsin – Madison.

1993–1996: Graduate Student, Department of Physics, and Department of Art, University of Wisconsin – Madison.

1991–1993: Department of Art, University of Wisconsin – Madison.

1990: B.S., Physics, University of Wisconsin – Madison. Graduated with distinction, class rank 17 out of 3073.

Positions Held:

- 2004–present: President, NPX Designs, Inc.
Current and recent clients include:
The University of Wisconsin, Madison (IceCube Project);
The University of Maryland, Dept. of Physics;
The Pennsylvania State University, Dept. of Physics;
E. O. Lawrence Berkeley National Laboratory, Berkeley, CA;
Pragma Securities, Inc., New York, NY
- 2002–2004: Sole Proprietor, John Jacobsen IT Services, Chicago, IL
- 1998–2002: Computer Systems Engineer, E. O. Lawrence Berkeley National Laboratory, Berkeley, CA
- 1997–1998: Postdoctoral Research Associate, Department of Physics, University of Wisconsin, Madison, Wisconsin
- 1997–present: Visiting Scholar, Department of Physics, University of California, Berkeley, California
- 1998–present: Postdoctoral Guest Researcher, E. O. Lawrence Berkeley National Laboratory, Berkeley, California
- 1994–1996: Graduate Research Assistant, Department of Physics, University of Wisconsin, Madison, Wisconsin
- 1993–1994: United States Department of Education Fellow, Department of Physics, University of Wisconsin, Madison, Wisconsin
- 1991–1993: Undergraduate Physics Research Assistant, Department of Physics, University of Wisconsin, Madison, Wisconsin
- 1990–1991: Physics Research Assistant, CERN, Geneva, Switzerland
- 1987–1990: Undergraduate Physics Research Assistant, Department of Physics, University of Wisconsin, Madison, Wisconsin

Recent Conferences:

- 2012: **Clojure/conj**, Raleigh, NC
- 2012: **Clojure/West**, San Jose, CA
- 2010: **O'Reilly Open Source Conference**, Portland, OR
- 2008: **O'Reilly Open Source Conference**, Portland, OR
- 2008: **PyCon**, Chicago, IL

Selected Awards and Honors:

- 1994: Emanuele A. Piori Award (highest score on graduate qualifying exam).
University of Wisconsin – Madison Department of Physics.
- 1993-1994: U. S. Department of Education Graduate Fellowship. University of Wisconsin – Madison Department of Physics.
- 1990: Albert Radtke Scholarship (outstanding undergraduate physics major).
University of Wisconsin – Madison Department of Physics.
